

## CALL FOR ABSTRACTS

### LYMPHOMA SYMPOSIUM

The overarching theme of the Dubrovnik 2024 lymphoma symposium will be "Novel Mechanisms in Lymphomagenesis", with the following 5 sessions:

- Clonal lymphoid haematopoiesis
- Epigenetics in lymphomagenesis
- Lymphoproliferations associated with germline abnormalities
- New frontiers in the treatment of lymphoma
- Recent Advances

### BONE MARROW SYMPOSIUM

The 2024 EA4HP bone symposium will provide in depth focus on novel discoveries in mechanisms in reactive bone marrow conditions and neoplastic myeloid and precursor cell neoplasms with specific sessions dedicated to:

- Bone marrow changes linked to systemic infectious and non-infectious disorders, particularly macrophage-activation syndromes/hemophagocytic lymphohistiocytosis (MAS/HLH)
- Myeloid neoplasms with evidence of the additive and/or cumulative effect of molecular genetic alterations
- Myeloid and lymphoid precursor cell neoplasms and mixed phenotype acute leukemias

### IMPORTANT DATES FOR ABSTRACT SUBMISSION

Submission starts	1 Feb 2024
Submission deadline	16 May 2024
Notification of acceptance	July 2024

## CALL FOR CASE SUBMISSION

### LYMPHOMA AND BONE MARROW WORKSHOPS

The corresponding lymphoma workshop is entitled "Exploring the boundaries between neoplastic and reactive lymphoproliferations", with the following 5 sessions:

- Atypical lymphoproliferations associated with germline or acquired genetic variants
- Atypical lymphoproliferations associated with therapeutic intervention
- Indolent paediatric lymphomas
- The morphological spectrum of Castleman disease and related disorders
- Lymphoid neoplasms with indolent behaviour (clonal lymphoproliferations with indolent behaviour)

**The bone marrow workshop invites submission of cases in the following categories:**

- Reactive and therapy induced bone marrow changes linked to systemic infectious and non-infectious disorders including MAS/HLH
- Myeloid neoplasms with evidence of the additive and/or cumulative effect of molecular genetic alterations that have "paved the way" to a specific disease category, subcategory or entity
- Myeloid and lymphoid early/undifferentiated precursor cell neoplasms and mixed phenotype acute leukemias

### IMPORTANT DATES FOR CASE SUBMISSION

Submission starts	22 AUG 2023
Submission deadline	15 Jan 2024
Notification of acceptance	May 2024

## REGISTRATION

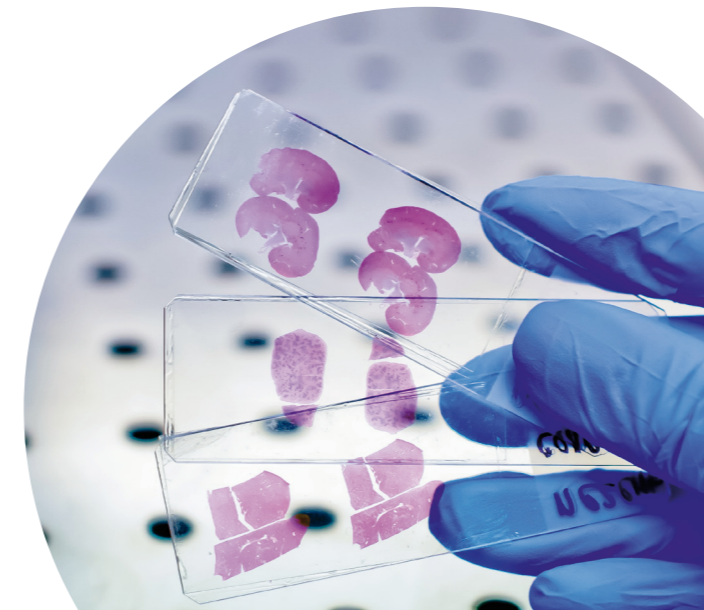

The online registration will open December 2023. To register, please visit [www.ea4hp-sh2024.com](http://www.ea4hp-sh2024.com).

### JOIN THE yEA4HP TO GET CONNECTED AND TAKE YOUR CAREER TO THE NEXT LEVEL

We are a group of early-career haematopathologists, residents, research and laboratory scientists, offering:

- A vibrant, international, multidisciplinary community
- Access to exciting opportunities for further learning, connection and collaboration
- Events and discussions that explore the latest field-changing advances

A yEA4HP session will be held during the 22nd EA4HP Meeting 2024. Visit the programme for more information.

## 22<sup>nd</sup> Meeting of the European Association for Haematopathology

Novel mechanisms in Lymphomagenesis and exploring the boundaries between neoplastic and reactive lymphoproliferations

Dubrovnik, Croatia  
21–26 September 2024

[www.ea4hp-sh2024.com](http://www.ea4hp-sh2024.com)

# WELCOME TO DUBROVNIK

## DEAR COLLEAGUES AND FRIENDS,

On behalf of the European Association for Haematopathology (EA4HP) and the Society for Hematopathology (SH), it is with greatest pleasure that I invite you to attend the 22nd Meeting of the EA4HP in Dubrovnik, Croatia. The meeting will take place at the Hotel Valamar Lacroma Conference Centre from 21st to 26th September, 2024. This venue is one of the largest conference facilities in the region. For the participants unable to join us in Croatia, there will be an option to register for the hybrid event.

For the first time this meeting is being held in Eastern Europe, in the medieval stone walled city with unique history and one of the UNESCO's World Heritage sites. After several years, we are proud to announce that the meeting will start with a Thymus Pathology Symposium, introducing the relevant scientific and clinico-pathological advances, followed by the traditional "Educational session" covering hot topics in hematopathology. The "Bone marrow day" will address challenging topics such as "Reactive and therapy induced changes" and myeloid neoplasms defined by evidence of cumulative effect of genetic alterations. With the main theme of the Lymphoma symposium "Novel mechanisms in lymphomagenesis", accompanied by a Lymphoma workshop focusing on the boundaries between neoplastic and reactive lymphoproliferations, this event will be an opportunity to take stock of the state of haematopathology today, address the current contentious diagnostic issues and point the direction of future research.

As always, the Organising Committee will provide an exciting social programme to complement the scientific sessions and facilitate professional networking. The Meeting Exhibition will be a great opportunity to see some of the latest technology used for diagnostic and research purposes, as well as offer information and advice to help you integrate it into your everyday practice.

We look forward to seeing you in Dubrovnik.

Snjezana Dotlic  
Chair Local Organising Committee  
On behalf of the Organising Committee

# PRELIMINARY PROGRAMME

	Saturday 21 September 2024	Sunday 22 September 2024	Monday 23 September 2024	Tuesday 24 September 2024	Wednesday 25 September 2024	Thursday 26 September 2024
8:00		Meet the Professor	Meet the Professor	Meet the Professor		
9:00		Exhibition	EA4HP Lymphoma Symposium	EA4HP Lymphoma Symposium	EA4HP Lymphoma Symposium	EA4HP Lymphoma Workshop
10:00			Coffee Break	Coffee Break	Coffee Break	Coffee Break
11:00			EA4HP Lymphoma Symposium	Poster Discussion	Coffee Break	EA4HP Lymphoma Workshop

## AS A DELEGATE AT EA4HP 2024 YOU CAN EXPECT

- Opportunities to engage with internationally renowned speakers in the field of haematopathology
- Access to haematopathologists in large academic centres, community hospitals and private practice, as well as basic researchers, haematologists and oncologists
- To engage in workshop and hands on training
- To be exposed to new ideas and experiences
- To develop synergies across disciplines
- Increased engagement at a regional and global level
